

To: Gavin Newsom, Mayor Bass, Respectively

This President is a failure in my book. I was told he was a billionaire and a real estate mogul... yet, even with ample resources, and plenty of money, after my stroke.. He failed to deliver even the most modest accommodations in Chicago, Illinois. He knew about my stroke, right as he re-entered the presidency, and even with very modest accommodations in North Dakota... I survived.

Then, when my Godfather went behind my back and stole what was left... I still survived. (I have doubts about President Trump and my Godfather, Ken Odde being in cahoots)

I currently have One primary care doctor at LA General Hospital who prescribed and filled two whole prescriptions of Lovonox... 2x per day 40ml...

After that... the prescription became too expensive

In a world that functions normally, the appropriate actions of the president would at least "look after me" ... I was in Tampa, homeless and I had my backpack stolen, AGAIN.

In my backpack I had literally everything important to me... my ID, my Social Security Card, Credit Cards, Cell Phone, Tablet... and they all went away, again.

I have yet to get back literally ANY OF IT...

In a world that operated normally I would be checked back into a hospital with the intention of making my surviving more like living. I have 20% use of my right (dominant) arm and at this point it should be more like 90%. My right leg is at about 70% and it should be more like

90%. I have a crappy saint jude heart valve made of plastic and metal... I worked at a 3d printer company.. I could have designed better.

Only at this point should I say I am better and ready to take on the workforce.

Thank You For Your Time And Attention To This Matter;
William Charles Stanton
